

ESD Screwdriver Set

45-070-1002

High quality micro screwdriver set for safe use on sensitive electronic components.

Technical data:

Surface resistance: $< 1 \times 10^5 \Omega$
Application standards: IEC 61340-2-3

REACH-compliant

Stainless steel screwdriver set from Wera

ESD-safe Wera Micro screwdriver set. Dependable protection against electrostatic energy and associated damage. Rapid twisting results from fixing the hand on the head and using the fast-turning zone just below. This makes time-consuming grip adjustments unnecessary. Power zones with integrated soft sections ensure the transfer of high loosening and tightening torque; a precision zone for the right rotation angle during fine adjustment work. The Black Point tip offers optimised corrosion protection and an exact fit.
